

Insurance Assistance

Our goal is to help you maximize your insurance benefits. As a service to our patients we will file your insurance claims for you, and help you work with the insurance companies to receive your greatest benefit. Please remember that **you** are solely responsible for any fees not covered by your plan.

Dental Insurance rarely pays for your entire treatment. Usually your dental plan will pay a percentage of each procedure up to a set yearly maximum. The benefits available to you are outlined in your individual policy. We take NO responsibility for any denials by your plan.
